

# GOOD HEALTH GUIDELINES

We want to provide a healthy environment in our ministry, so we ask you to keep your child at home when you observe any of the following:

Fever/vomiting

Green or yellow runny nose

Diarrhea

Excessive coughing

Discharge in or around the eyes

Questionable rash

- If your child becomes ill while in the children's department, you will be notified promptly.
- If your child is being treated with an antibiotic, he or she should have received treatment for at least 24 hours before attending.

*NO medication will be given under any circumstances. Parents must return and give medication if necessary.*
