## GENERAL TERMS AND CONDITIONS OF SALE

The general terms and conditions of sale of the EURODENT division of Promed srl are understood to be tacitly accepted by the buyer when the latter sends the order.

The prices in the attached price list are understood to be in Euros, ex works at Villanova di Castenaso (Bologna province excluding VAT)

Goods always travel at the buyer's risk, even if shipped carriage paid to destination. The EURODENT division of Promed srl shall not be liable for any failings, damage, or anything else that may occur relative to goods transportation.

If the goods are not collected by the buyer within 10 days of the date of the goods ready notice, the EURODENT division of Promed srl will be able, without further notification, to charge for storage costs at the rates applied by customs warehouses.

Under no circumstances can the buyer refuse to collect or clear the goods ordered. Should the buyer do this, any additional charges relating to said refusal will be paid by the buyer.

The EURODENT division of Promed srl is authorised to make changes intended to improve the operation and appearance of the articles without the obligation to give prior notice to the buyer.

Any changes, variations or cancellations by the buyer of orders already in production will entitle the EURODENT division of Promed srl to charge the buyer for additional costs sustained.

Packaging of the goods is included in the prices. Special packaging requested will be charged for separately.

Orders must be sent in writing (fax 051/781625 or e-mail [eurodent@eurodent.it](mailto:eurodent@eurodent.it)) and will be confirmed with an order confirmation that must be returned signed for acceptance.

The minimum invoice amount is € 100.00 excluding VAT.

The delivery periods indicated are meant only as a guide and not as a commitment. Delays can never be grounds for compensation, nor for termination of the contract.

Any definite delivery deadlines must be agreed between the parties expressly in writing.

Failure to settle the invoice by the due date will result in interest being charged, pursuant to Legislative Decree 231/02.

The EURODENT division of Promed srl reserves the right to reject returns unless they are authorised IN ADVANCE and those not requested within 8 days of the date when the goods were received.

Unauthorised returns will be rejected at the customer's expense.

The company reserves the right, at its absolute discretion, to accept or reject the return.

Goods may be sent for repair or return/replacement to our Technical service centre only and exclusively after a special Return Merchandise Authorisation has been issued, and only according to the methods, terms and conditions indicated in that authorisation. The package must be accompanied by a correctly filled out transport document showing the reason "Return for repair", in its original packaging and marked with the RMA number.

All repairs will be shipped cash on delivery (COD), unless otherwise agreed.

The EURODENT division of Promed srl will only recognise the warranty if it receives the duly completed certificate within 60 days of installation.

Eurodent WARRANTY for dental units - 36 months (excluding technical work) on all EURODENT spare parts. For anything not manufactured by EURODENT, the relevant manufacturer's warranty will apply (e.g.: FARO, Bien Air, Luzzani, EMS, TKD, Satelec, etc.).

Eurodent WARRANTY for stools units - 24 months

The Eurodent division of Promed srl reserves the right to make changes to the attached price list.

The attached price list replaces and cancels the previous price lists.

For any disputes that may arise, jurisdiction shall lie with the Law Court of Bologna.
