Subject: Here is a Method That is Helping Normal People Make Extra Money From Home

Hi [firstname]

Starting a brick-and-mortar business is frankly out of reach for most people.

Not to mention the risk involved.

Example: You want to start a restaurant.

You're \$50K out of pocket before making your first sale, if you ever make it that far.  
And once you do, making a profit, the overheads, the expenses, recouping your original investment.

2 years go by, and you don't have a business. You ARE the business.

12-14 hours a day, 7 days a week, just to keep the place going.

This isn't what you signed up for!

You start a business to have freedom, to have money.

How is it possible to achieve these things without the risk.

The answer AFFILIATE MARKETING.

You don't need your own products.

You don't need an inventory.

You don't need to outlay massive capital.

You don't need to have employees.

This is THE business model that helps normal people make extra money from home.

Learn more about it here.

It is inevitable that you can't have a job forever. In today's work, you need an extra income stream.

Subject: The Secret of Successful Millionaires

Hi [firstname]

Sometimes I thought to myself, "is it possible that millionaires and billionaires have a secret?"

Maybe there is a conspiracy on how the rich get richer, and the poor people, just stay poor.

I can tell you there is one secret that is so BIG and so in your face that no one appreciates how powerful it is. Would you like to know what it is?

Well there is a few ways to say it.

Some call it NETWORKING.

Some call it JOINT VENTURE.

Some call it PARTNERSHIPS.

The two tech giants of our time, Microsoft and Apple, even they had times where they partnered with each other.

Did you know that Microsoft invested MILLIONS of dollars into Apple during a slump back in the 90s? True story.

So how can you form a partnership with these successful people too? How can you get in on the "inner circle"?

Well – this is explained in an upcoming webinar that my good friend John Crestani is hosting.

Subject: Who Else Wants More Fun and Less Stress When on Vacation?

Hi [firstname]

Going on vacation is over-rated.

People talk about going on vacation and how much they look forward to it.

Truth is, you only get a few weeks a year off work, and while you're on "vacation", your head is not there.

Your head is thinking about the credit card debt that paid for this vacation.

Your head is thinking about that student loan that never seems to go away.

Your head is thinking about that dreadful job you need to get back to very soon and suffer for another year.

There is a way to overcome that.

It is called PASSIVE INCOME.

Money that comes in WHETHER YOU WORK OR NOT.

There is an incredible business model that makes it all possible.

Subject: Can we really trust internet gurus?

Hi [firstname]

If you have questioned the honesty and integrity of some of the "gurus" online that are making life-changing promises – you are not stupid.

I can't even tell you how many people have "come and gone", made a quick buck, took advantage of consumers and left them in the lurch.

If you have ever been one of them – I can relate.

I think that every person who ever tried to make money online, was once this consumer who got tricked, misled, and taken advantage of.

You are left with the question: "who do you trust?"

It's a tough one. Should one give up? Is this "making money online" even real?

One thing for sure: YES, it IS real. People are making fortunes online. It is a digital economy.

One thing you can consider, is the longevity of who is mentoring you. That person can't just be the new kid on the block. Do they have a track record? Have they been through the ups and downs and still prevailed?

I found someone like that, and I am excited to share with you here

====> your affiliate link here <=====

What makes this one special is that there is a reality that marketing online is always changing. A course you buy online 2 years ago does not necessarily apply today.

And so for 2019, it's pretty exciting that this mentor of mine, has released his 3.0 version.

He tells you about it in this video.

Subject: Little Known Ways to Turn \$1 to \$2

Hi [firstname]

Have you ever wondered how you can take the money you have, and double it?

Well, there is a way to do it.

And it is NOT a gamble.

In fact, it is a SCIENCE.

There is proof of people doubling their money online, and having a predictable outcome when they invest money.

It is like having your own cash-generating ATM.

It is called PAID ADVERTISING.

You put in \$10 to acquire a customer, and that customer pays you \$20 for a product or service.

You might be thinking, "that's nice, but what am I selling?"

That's the beautiful part!

You don't need to have anything to sell!

You are selling someone else's product or service.

Hi [firstname]

I have to break it to you, but most people don't like their job.

Subject: Here is a quick way to solve financial stress

Hi [firstname]

Financial stress comes from living paycheck to paycheck.

You make just enough money to make ends meet.

There is an easy solution to alleviate the stress, but it is temporary.

However, it is something you should consider:

- 1) List out all your existing expenses and cut out all the expenses you don't need. That Netflix that is costing you time and money. That gym membership you haven't used in several months. That Amazon Prime that is sucking your time away from you.
- 2) Sell stuff you don't need. Yep, you heard me. Go around your house and start selling the junk that is laying around doing nothing. Put it up on Facebook Marketplace and get rid of it.

Sorry to be so blunt, but these 2 simple actions are actionable steps you can do to take control over your finances.

But I can also tell you, even if you do these 2 things in the next week or two, it is NOT enough.

You need to start a SECOND source of income TODAY. Build something concurrent, build something sustainable, that can give you that extra boost to alleviate stress for the long term.

The solution is in a video presentation.

Pestering my family and friends on Facebook...

Well – there is.

Luckily my friend John was generous enough to teach me and thousands of others how he became a millionaire WITHOUT doing any of these things.

And not only that, build a legitimate internet business that he (and you) and actually be proud of!

There are lots of people selling your online training that is outdated, irrelevant and that is not working.

Yes, basic principles of business, marketing, are the same. Yes there are things that are the same.
