PLATFORM WITH DASHBOARD

WHAT IS A

WEBSITE DASHBOARD?

A DASHBOARD

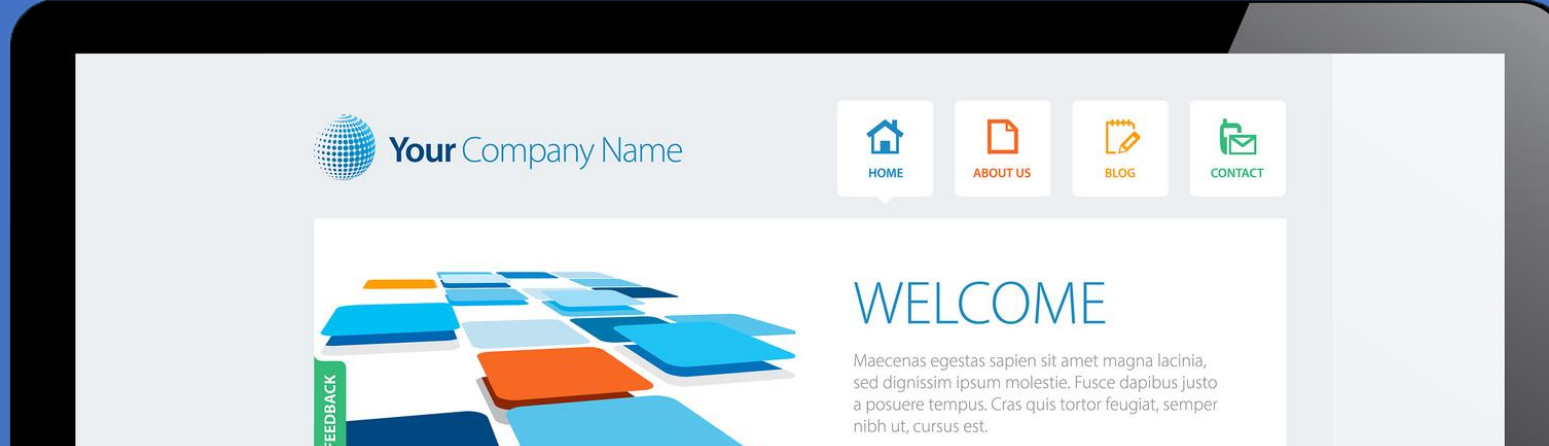

Website Administration & Content
Management System

A data dashboard is an information management tool.

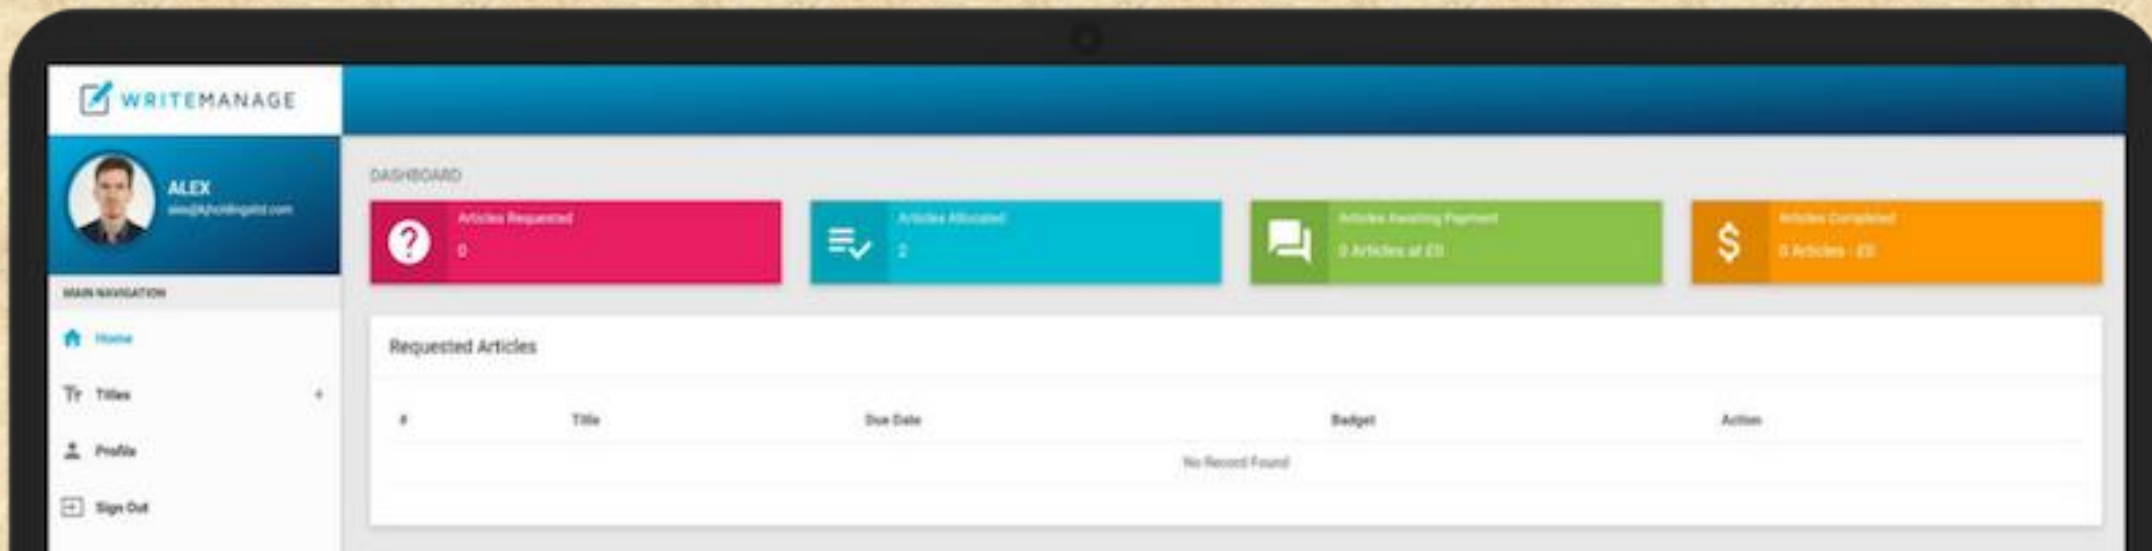

It visually tracks, analyzes and displays **key performance** and monitor the activities happened in the website.

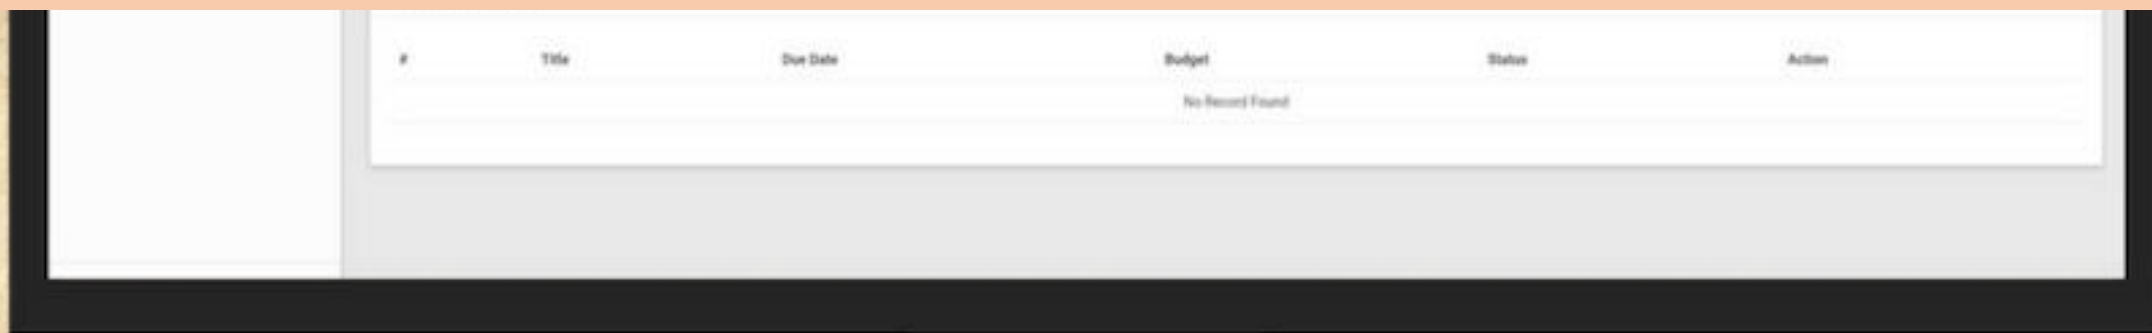

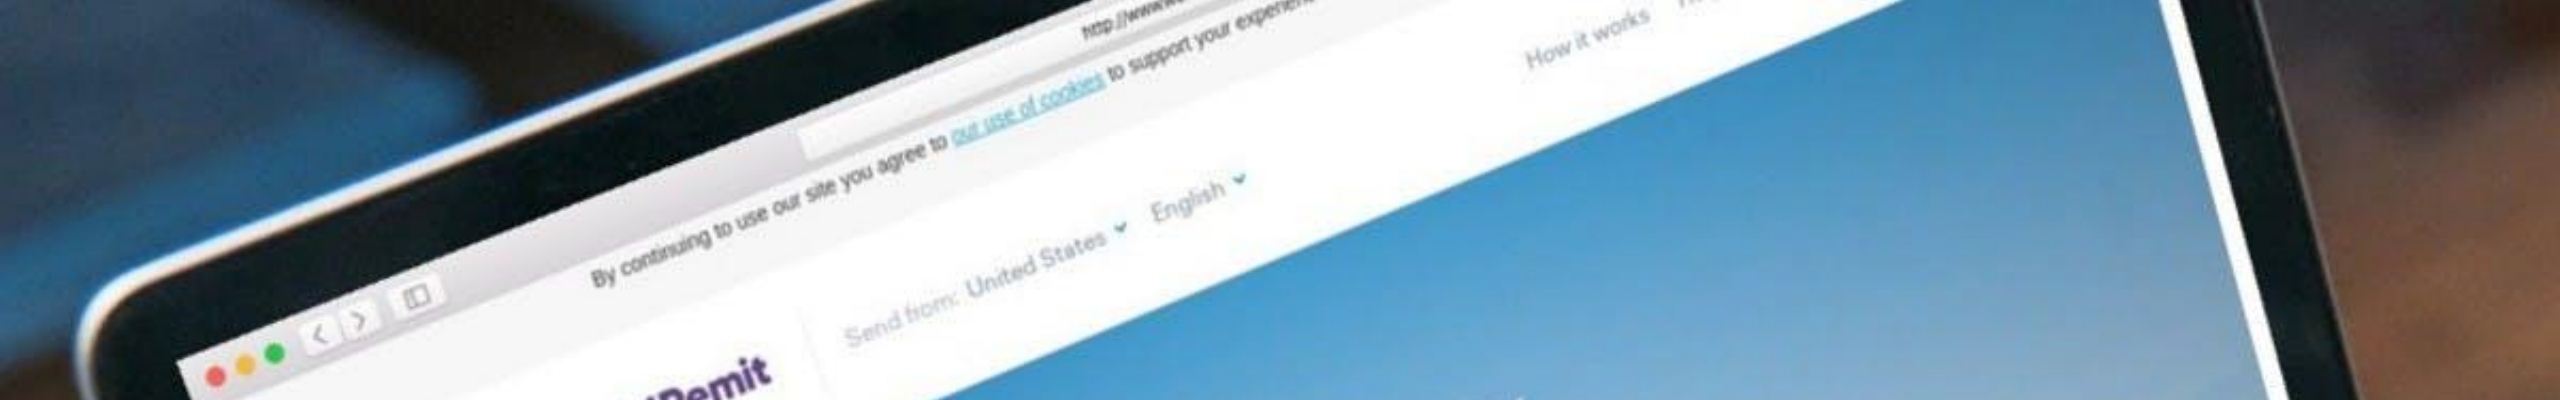

IT IS MAINLY USED FOR CONTENT MANAGEMENT WITHOUT THE HELP OF ANY TECHNICAL PERSON/DEVELOPER.

WHY DASHBOARD?

It used to be the case that when you build a website you would then have to pay additional fees if you wanted something updated.

With a dashboard website you will be able to easily update your website's content, images, etc.

```
3 require File.expand_path("../..", __FILE__)
4 # Prevent database truncation if the environment is production
5 abort("The Rails environment is running in production mode!")
6 require 'spec_helper'
7 require 'rspec/rails'
8
9 require 'capybara/rspec'
10 require 'capybara/rails'
```

**Everything you can customize
without the help of developer**

```
25 # spec/support
26 # run as spec files by default
27 # in _spec.rb will both be required
28 # run twice. It is recommended that you
29 # end with _spec.rb. You can configure
30 # option on the command line as well.
31
32 No results found for 'mongoid'
```

**You will be able to see the all data related
to your website at a glance.**

Reach the right customers with the right keywords.

Discover new keywords.

Start by searching words or phrases related to your products or services. Keyword Planner works to find the keywords that are most relevant to your business which you can then choose to add to your plan.

Compare keywords trends.

Get suggested bid estimates and see how often keywords are searched and how their search volume changes over time. That way, you can narrow down your keyword list and set your budget for the keywords you really want.

Create and share your plan.

When you have a plan you like, you can save it to your account or share your plan with others. Then, you can create ad groups and set bids for each keyword before turning your campaign on.

4.ADD BANNER

Banner is one of the important feature of a website.

IT SHOULD BE ATTRACTIVE AND ALSO IT IS IMPORTANT TO CHANGE BANNERS PERIODICALLY.

HOW DO WE CHANGE BANNERS FROM WEBSITE

STEP 1

Go to dashboard and click on manage website

The image shows a screenshot of an admin dashboard. On the left is a dark sidebar with navigation options: Admin, Dashboard, Affiliates, Manage Website (circled in red), Onsite SEO, Optim List, and SEO Master. The main content area includes a top navigation bar with 'Welcome to Admin Dashboard' and 'Dashboard Summary'. Below this is a 'Platform at a Glance' section with a grid of statistics: Total Products (22), Active Products (22), Inactive Products (0), Featured Products (0), Branded Products (0), and Active Merchants (7). A second row shows Total Categories (6), Active Categories (2), Inactive Categories (4), Total Brands (2), Active Brands (0), and Inactive Brands (2). Further down is an 'Affiliate Products Overview (Aug 2020)' section with Total Products Listed (22), Products Viewed (9), and Products not Viewed (13), accompanied by a progress bar at 50%. A 'Manage Affiliates' button is at the bottom of this section. On the right, an 'Add More to Your Portal' section contains several blue buttons: Add New Affiliate Product, Add New Category, Add New Blog, Add New Testimonial, Add New Flash News, Manage Onsite SEO, Add New Banners, and Manage Social Media Links. A 'Last Login' notification shows '03 Aug 2020 | 04:32 am'. A 'SMART LIBRARY' logo is also visible in the top left of the main area.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
