WEBSITE FLIPPING

**WEBSITE FLIPPING =
DIGITAL REAL ESTATE**

**ONLINE BUSINESS FLIPPING =
DIGITAL REAL ESTATE**

***ONLINE BUSINESS FLIPPING IS
YOUR **PLAN B*****

**FLIPPING CAN BE ONE
OF YOUR EXIT STRATEGY**

WHAT IS ONLINE BUSINESS FLIPPING?

SELL

BUY

The basic idea behind flipping online business is buying the website, domain, or social media at a lower price and then selling them at a profit.

WHAT IS WEBSITE FLIPPING?

Website flipping is the art of buying, improving and selling websites.

**THERE ARE
3 DIFFERENT
TYPES OF
WEBSITE
FLIPPING**

BEGINNERS' FLIPPING

Essentially this is to build a website from scratch, do some promoting and then sell the site once it has traffic. This method takes more time but gives greater control on choosing the direction, setup and interest area of the website.

A person is shown from the side, wearing a blue and white checkered shirt, typing on a silver laptop. The laptop screen displays a document with text and a table. The background is a blurred office environment with a window, a desk lamp, and a teal container. A white rectangular box with a black border is overlaid on the bottom half of the image, containing the text "STANDARD FLIPPING" in bold black capital letters.

STANDARD FLIPPING

A person is sitting at a desk in a modern office, working on a laptop. The person's hands are visible on the keyboard, and they are wearing a blue and white checkered shirt. The background is blurred, showing a window with a view of a city and a desk lamp. The text is overlaid on the bottom half of the image.

*This is the most common
flipping business model.*

Essentially you buy a fixer upper website with some potential, enhance it as quick as possible and sell it at a higher price. The choice of website is the most important element here.

LONG TERM INVESTMENT FLIPPING

Many people buy a website for its proven monthly recurring income and then develop that website as a long-term investment.

This type of investor will hold onto the site for years whilst profiting from its income capacity and then selling the website once it reaches a market threshold for an increased price. This requires more money and requires plenty of patience and skill.

**WHAT IS
FLIPPING?**

Flipping involves buying an asset and then selling it straight away.

The aim is
to make a
quick
profit.

The image shows a screenshot of the Insurance.com website. The background is a photograph of a smiling woman in the driver's seat of a blue car. The website header includes the Insurance.com logo with the tagline 'Shop. Switch. Save!' and navigation links for 'AUTO INSURANCE', 'HOME INSURANCE', 'HEALTH INSURANCE', and 'LIFE INSURANCE'. A white quote form is overlaid on the right side of the page. The form contains the following elements: a location field with the zip code '94404', an 'AGE' dropdown menu, a 'CURRENT INSURANCE' dropdown menu, and three checkboxes: 'I own my home', 'I am married', and 'I have multiple vehicles' (with an information icon). A green 'GET STARTED' button is at the bottom of the form. A small disclaimer at the bottom of the form states: '*Average savings of self-reported consumers in California during the period from January 2018 to January 2019'. At the bottom of the page, logos for 'PROGRESSIVE', 'esurance', '21st Century', and 'Liberty Mutual' are visible.

Net Earnings per Unique Visitor

\$0.53 (Going Well) - Your website is doing really well in terms of \$\$ per visitor to the site. Paid traffic is definitely an option you should consider. Your main focus should be to do everything you can to continue to drive more relevant visitors to the site and you'll see an big increase in your earnings.

Net Earnings per Email Subscriber

\$0.07 (Needs Improvement) - You should really take a look at building and expanding your email subscribers. It's painful at first - you might have visitors that subscribe and you won't earn anything from them right away - but once you get over 1K subscribers or so you'll have a valuable asset that will continue to grow your business.

Shelfari was launched on October 11, 2006. In February 2007.

Shelfari was a social cataloging website for books that got merged with Good Reads.

Shelfari users build virtual bookshelves of the titles they own or have read, and can rate, review, tag, and discuss their books.

Amazon.com invested \$1 million in Shelfari, and moved to acquire it a year later in August 2008.

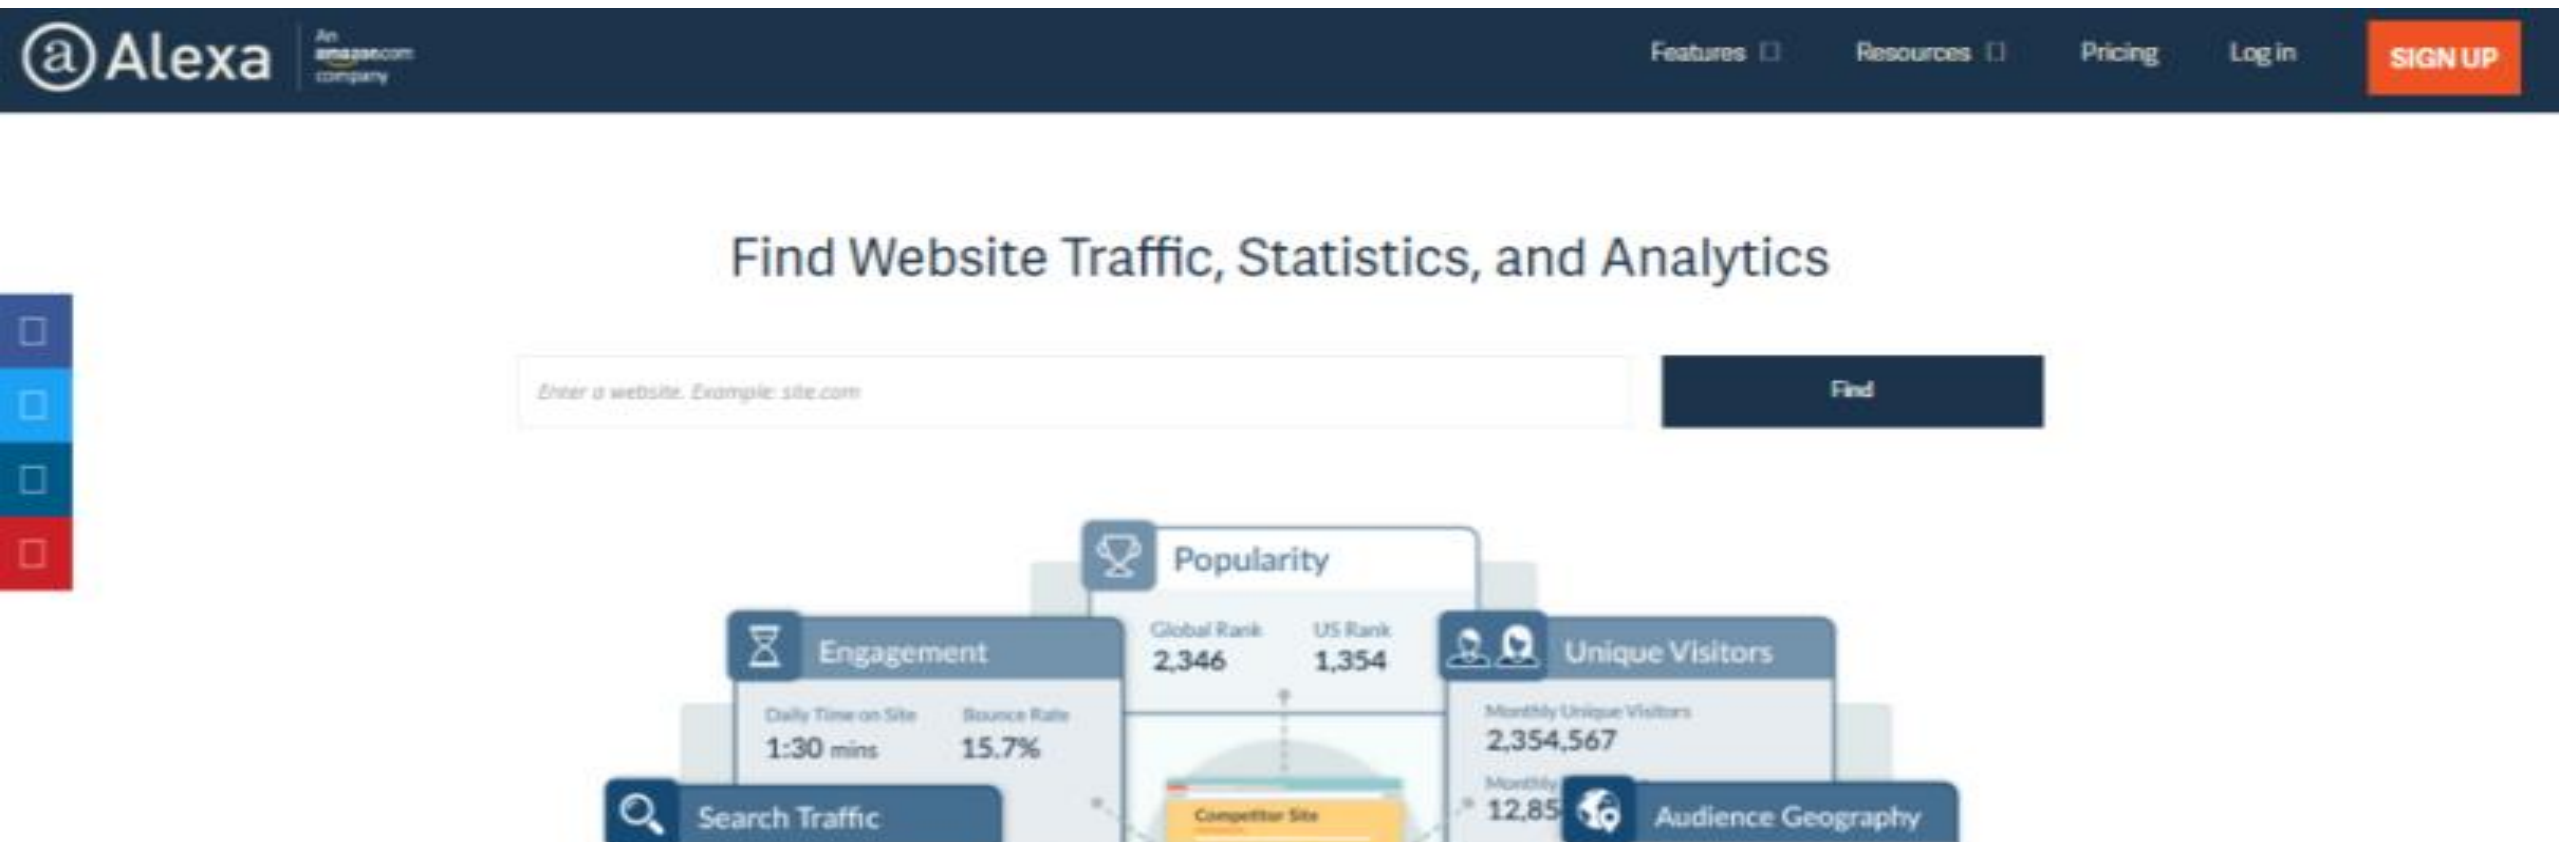

As of January 2016, the site hosts a notification announcing "Shelfari is merging with Good reads".

9. ALEXA INTERNET

**Founded as an independent company
in 1996.**

The image shows the Amazon logo mounted on a dark, textured building facade. The logo consists of the word "amazon" in a white, lowercase, sans-serif font, with a yellow curved arrow underneath it that starts under the 'a' and ends under the 'z'. The building is a multi-story structure with a grid of dark panels. To the right, a portion of another building with blue-tinted glass windows is visible. The sky is bright blue with scattered white clouds. On the roof of the building, there are two silver cylindrical tanks and some metal railings.

**Alexa was acquired by
Amazon in 1999 for
\$250 million.**

Alexa

Alexa Internet, Inc. is a California-based company that provides commercial web traffic data and analytics.

The image shows a large, modern building with a dark, textured facade. The Amazon logo, consisting of the word "amazon" in white lowercase letters with a yellow arrow underneath, is mounted on the building's exterior. The sky is blue with scattered white clouds. To the right, a portion of another building with blue glass panels is visible.

amazon

**It is a wholly owned
subsidiary of Amazon.com.**

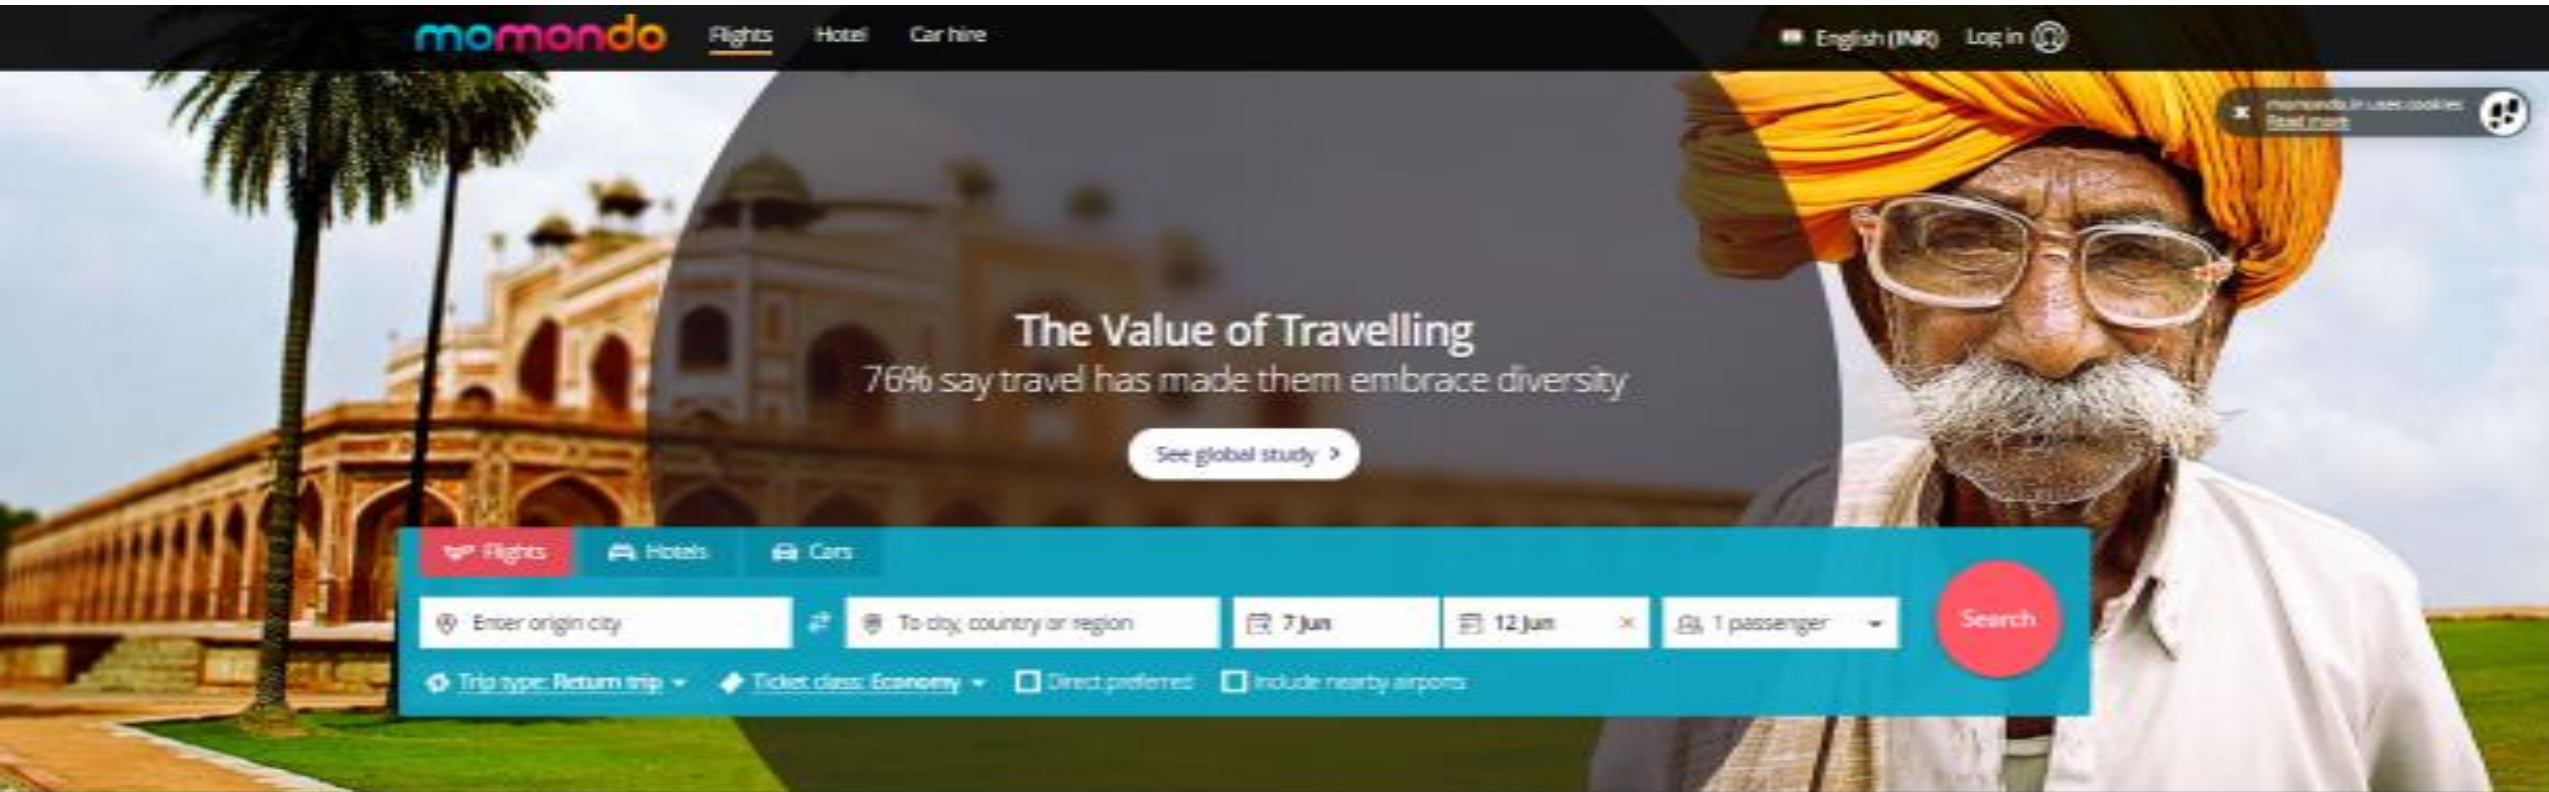

A digital highway with cars and binary code. The road is composed of glowing blue lines of binary code (0s and 1s) that recede into the distance. Several white cars, including a sedan, a hatchback, and a van, are driving on the road. The background is dark with some faint, glowing elements, suggesting a digital or data environment.

This is the basis for the company's web traffic reporting. According to its website, Alexa provides traffic data, global rankings, and other information on 30 million websites.

As of 2015, its website has been visited by over 6.5 million people monthly.
