U.S. retailers' online year-over-year (YoY) revenue growth is up 68% as of mid-April, surpassing an earlier peak of 49% in early January.

There's been a 129% year-over-year growth in U.S. & Canadian e-commerce orders as of April 21 and an impressive 146% growth in all online retail orders.

Online conversion rates increased 8.8% in February, reflecting a level of shopping urgency typically seen during Cyber Mondays, according to QuantumMetric.

A person is walking away from the viewer on a narrow, stone-paved path that leads through a tunnel of water. The water is a deep, vibrant blue-green color and flows rapidly on either side of the path, creating a sense of movement and depth. The path is made of irregular, light-colored stones and leads towards a bright light at the end of the tunnel. The overall atmosphere is one of mystery and adventure.
