MAWL Training Cycle

The Goal: Establish the core practices through to the 4th generation of the people we disciple. This will allow groups to multiply and a healthy movement to be launched.

The 4 phases of Model (D1), Assist (D2), Watch (D3) and Leave (D4) overlap.

- Generation 0 models the core practices to Generation 1, who then begins obeying them immediately.
- Generation 0 shifts from Model to Assist for any core practice that Generation 1 moves from D1 to D2 on.
- Generation 0 finishes modeling when Generation 1 moves from D1 to D2 on all the core practices.

- Generation 1 begins modeling for Generation 2 as soon as possible. Generation 1 can model any core practice that is in the D2 phase or higher (Generation 1 doesn't have to master all the core practices before beginning to model for Generation 2).
