

RECYCLIT
The UNIQUE Kitchen Waste Chute System

Features & Benefits

FEATURES AND BENIFITS

Firstly thank you for considering purchasing a Recyclit, the UNIQUE Kitchen Recycling & Waste disposal Solution, we at Recyclit believe that you and your family will use Recyclit many times a day for a Lifetime, providing your family with convenience, hygiene and the fact that your family are all now actively helping to save our Environment by Reducing waste going to landfill.

Recyclit has been designed to be user friendly, time saving, convenient, ergonomic and simple to use. All our systems encourage Environmental Best practise with sustainable disposal and sorting of waste, recyclables and compost at the source without leaving the kitchen or using plastic shopping bags, garbage bags, bin liners and kitchen tidy bins. Just Imagine No more arguments about who is going to carry those heavy garbage bags outside to the wheelie bins on cold dark rainy nights.

If used correctly Recyclit can help reduce waste going to Landfill by 80%, Recyclit can now be customized to be used as Laundry chutes or larger bags or connect directly to Worm farms and compost bins, speak to one of our consultants to find out if this option will work for you sales@recyclit.com.au

Eliminate odour germs and bacteria from your kitchen were you eat and prepare food by removing those unsightly kitchen rubbish bins. Save money and Increase valuable storage area in your kitchen by illuminating the need to purchase and build a kitchen bin storage cupboard that would normally be used to store waste and recyclables until disposal

Reduce time and workload by eliminating the need to double handle waste, recyclables and compost. Recyclit was designed with consideration for those with disabilities.

Our ergonomic design minimises injury caused by bending, lifting, twisting and carrying, those heavy dripping Garbage bags and boxes. Recyclit's components are manufactured from high quality materials. Manufacturing also adheres strictly to worldwide standards and guidelines.
