## Sink Quick Reference Guide

### Practical Ingenuity in Action

#### Perfect Drain®

Sinks featuring the Elkay Perfect Drain® have a seamless look and feel. The edgeless design eliminates the collar around the drain for a cleaner sink. Food has nowhere to go but down the drain.

#### Aqua Divide™

Elkay sinks featuring Aqua Divide™ offer flexibility at the sink. They have a low center wall that allows pan handles to extend over the middle. Use it as two separate bowls or fill the sink high with water to wash larger items, like baking sheets, across both bowls.

#### Water Deck™

Sinks featuring Water Deck™ have a lowered faucet deck that directs water into the sink. This helps to keep the countertop dry and prevents mold and residue from building up. Available on Crosstown sinks.

#### Tight Corners

Corners are engineered to give the sink a modern look. They also make the sink easy to clean. Available on Lustertone Iconix sinks.

#### 15 mm Corners

Fresh, geometric design offers a flat bottom for a contemporary look and more usable space inside the sink. Tight, 15 mm corners are easy to clean. Available on Crosstown sinks.

#### Zero Radius Corners

Perfectly squared 90° corners give the sink a modern look with a flat bottom for more usable space inside. Items sit flat in the bottom of the sink, and glassware is less likely to tip over and break. Available on Crosstown sinks.

## Sink Finishes

(See individual sink SKUs for finish availability.)

### Stainless Steel

#### Lustrous Satin

This striking uniform finish is scratch resistant to heavy-duty use. Deep scratches are repairable with an Elkay stainless steel restoration kit. The fine linear grain reflects light evenly for high shine. Available on Lustertone Classic sinks.

#### Luminous Satin

A resilient finish that is scratch resistant, standing up to everyday use. Deep scratches are repairable. The linear grain radiates the light. Available on Lustertone Iconix sinks.

#### Polished Satin

A soft, linear grain provides a radiant finish. Available on Crosstown sinks.

#### Brushed Satin

A light, linear grain lends a subdued, casual feel to this finish. Available on Celebrity sinks.

#### Rugged Texture

A semireflective finish of bold, random semicircles is applied by hand for a unique texture and look.

#### Hammered Mirror

Mirrored stainless steel is the base for this finish that features a random hammered pattern that is achieved by hand.

### Antique Hammered Copper

The hammered texture is handcrafted. The copper surface forms a natural patina with time adding to the character of the sink.

### Fireclay

Fireclay offers an attractive porcelain appearance that is smooth with a glossy sheen.

### Quartz

#### Quartz Luxe

The sleek surface is silky smooth to the touch.

#### Quartz Classic

Our original quartz has a smooth surface with a visible depth to the structure.

## Sink and Faucet Care and Cleaning

### Stainless Steel

- General cleaning: Wash the sink daily with a mild dish detergent and soft cloth to prevent buildup of mineral deposits from the water. Rinse the sink completely and towel dry. Never use steel wool to clean a stainless steel sink.
- For a deeper clean, wash weekly with a mild stainless steel cleanser, such as Bar Keepers Friend®, to polish and remove residue, stains and light scratches. No stainless steel sink is completely scratch proof. Elkay offers a stainless steel restoration kit for deeper scratches.
- Elkay offers bottom grids and rinsing baskets to help protect the sink from scratches. Never use a rubber mat in your stainless steel sink. Water and other residue can become trapped between the rubber and the sink, causing permanent staining with time, if left untreated.
- Avoid storing open containers of household cleaners and chemicals containing chloride such as bleach, acid, drain cleaner and toilet bowl cleaner beneath the sink. Vapor emissions from the chlorides can cause corrosion and pitting to the exposed stainless steel and other metals, including faucet water supply lines. If any of these chemicals are used in the sink, rinse it immediately with plenty of clean water and dry thoroughly.

### Stainless Steel Mirror

- General cleaning: Wash sink with ordinary, mild detergent and a soft cloth, rinse and towel dry.
- Never use abrasive cleaners, including steel soap pads.

## Sink and Faucet Care and Cleaning

### Antique Hammered Copper

- General cleaning: Wash sink with nonabrasive, nondetergent soap and a soft cloth. Rinse and towel dry.
- Never use abrasives, metal (copper) cleaners, scouring pads, lime-or rust-removal products, alkaline-based, ammonia-based or acidic-based chemicals or cleaning products.
- Acidic foods such as juices and ketchup can remove the patina, if left on the sink.
- Hard water spots and mineral deposits can be difficult to remove and may result in damage to the patina.
- Light scratches are normal for copper sinks; with time they will blend into the uniform finish pattern.
- Copper has a living finish and its surface tarnishes naturally. You can expect tarnish, scratches, and dents to appear in your sink with time.

### Quartz

- General cleaning: Wash sink with soapy water and a sponge. Rinse and dry with a soft cloth.
- Wipe water marks with a damp cloth and towel dry.
- Remove difficult stains using a 50-50 solution of water and bleach or nonabrasive cleaners (follow cleaner manufacturer's instructions), rinse and towel dry.
- Do not use abrasive cleaning products, scouring pads, steel wool, or caustic solutions containing ammonia or alkalis.

### Fireclay

- General cleaning: Wash sink with soapy water or vinegar-based cleaner and a sponge and towel dry.
- Wipe water marks with damp cloth and towel dry.
- Remove difficult stains using a 50-50 solution of water and bleach or nonabrasive cleaners (follow cleaner manufacturer's instructions), rinse and towel dry.
- Do not use strong chemicals such as paint removers or oven cleaners, straight or undiluted bleach solution, abrasive cleaning products, scouring pads, steel wool or caustic solutions containing ammonia or alkalis.
- Do not set hot pans directly into sink.
- Run cold water when pouring boiling water into sink.

### Faucets

- General cleaning: Wipe gently with a damp cloth and blot dry with a soft towel.
- Avoid buildup of soap or mineral deposits, as these tend to have an adverse effect on the appearance of the product.
- NEVER use cleaning products of any kind on the faucets — especially those containing ammonia, bleach or alcohol — or those with any form of abrasive.

A man with a beard, wearing a grey sweater, is watering a basil plant in a white pot. He is standing at a kitchen sink, holding a pull-down faucet sprayer. The faucet is a modern, stainless steel, pull-down style with a flexible gooseneck. The sink is a stainless steel, undermount style. There are other potted plants in the sink, including a thyme plant. The background is a white wall and a white countertop. A green overlay is in the top right corner.

# ELKAY®

Stainless Steel

**16 OR 18 GAUGE  
304 TYPE**

**DURABLE**  
Premium 16- and 18-gauge thickness stainless steel for long-lasting durability and performance.

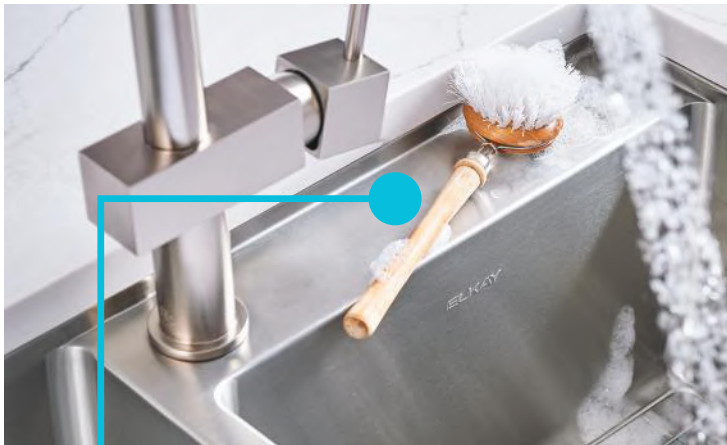

**CUSTOM BOTTOM GRIDS**  
Bottom grids are custom sized to cover the bottom of specific Elkay sink bowls.  
*Available on select models.*

**QUIET**  
Sound-deadening material minimizes sound and vibration for a quieter time at the sink.

**TIGHT CORNERS (ZERO AND 15 MM)**  
The combination of tight corners, a flat bottom and creased accent lines offer a geometric design ideal for any decor.

**ULTRATHIN SLIM RIM™**  
Install sink as a drop-in or undermount; ultra thin, flat rim virtually eliminates the barrier between sink and counter for a clean look.  
*Available on select models.*

## CROSTOWN

**TIGHT CORNERS AND CROSS BREAKS**  
Flat bottom offers more space inside, and means glassware is less likely to tip over. The slightly rounded corners make the sink easy to clean, while the creased accent lines in the sink bottom deliver superior drainage and a professional appearance.

**WATER DECK**  
A lowered faucet deck directs water into the sink to help keep the countertop dry.  
*Available on select models.*

STAINLESS  
SINGLE BOWL  
DROP-INS

Lustertone™ Classic  
ILR3322L

# ELKAY<sup>®</sup>

Stainless Steel

## REPAIRABLE FINISH

Our lustrous satin finish features a rich, uniform grain.

## STAINLESS STEEL CONSTRUCTION

Highest quality, 18-gauge thickness stainless steel for long-lasting durability and performance.

## EXCLUSIVELY ELKAY

The edgeless design of our Perfect Drain eliminates the gap around the drain for a cleaner, more hygienic sink. Food and waste go right down the drain. *Available on select models.*

## HIGHLIGHTED SATIN

A brightly polished rim around the top of the bowl provides a striking crowning touch. *Available on select models.*

## EASY MAINTENANCE

Clean using ordinary, mild dish detergent and a soft cloth.

## HIGHLIGHTED SATIN

A Lustertone Classic sink looks as great on day 3,000 as it does on day one. Light scratches, which occur with everyday use, naturally blend into the finish with time.

## LUSTERTONE CLASSIC

## SHHH ... IT'S QUIET TIME

Sound-deadening pad(s) minimizes sound and vibration for a quieter time at the sink.

## OFFSET DRAIN

Drain placement provides more usable space on the bottom of the sink and in the cabinet below. *Available on select models.*

# ELKAY<sup>®</sup>

Stainless Steel

## REPAIRABLE FINISH

Our lustrous satin finish features a rich, uniform grain.

## STAINLESS STEEL CONSTRUCTION

Highest quality, 18-gauge thickness stainless steel for long-lasting durability and performance.

## EXCLUSIVELY ELKAY

The edgeless design of our Perfect Drain eliminates the gap around the drain for a cleaner, more hygienic sink. Food and waste go right down the drain. Available on select models.

## HIGHLIGHTED SATIN

A brightly polished rim around the top of the bowl provides a striking crowning touch. Available on select models.

## EASY MAINTENANCE

Clean using ordinary, mild dish detergent and a soft cloth.

## HIGHLIGHTED SATIN

A Lustertone Classic sink looks as great on day 3,000 as it does on day one. Light scratches, which occur with everyday use, naturally blend into the finish with time.

# LUSTERTONE CLASSIC

## SHHH ... IT'S QUIET TIME

Sound-deadening pad(s) minimizes sound and vibration for a quieter time at the sink.

## OFFSET DRAIN

Drain placement provides more usable space on the bottom of the sink and in the cabinet below. Available on select models.

Quartz Luxe® in Jubilee  
ELXHU3322RJBO

# ELKAY® Quartz

## SUPERIOR STRENGTH

Organic fibers offer added impact resistance. A fiberglass mat molded onto the underside of the sink reinforces the work zone.

## NATURALLY QUIET

Thick material absorbs noise when working at the sink.

## RICH HUES

UV-stable color won't fade.

## STAIN AND SMUDGE RESISTANT

Silky surface resists stains and smudges, making the sink easy to clean.

## NONPOROUS MATERIAL

Food and liquid won't stick to the surface, and bacteria won't spread.

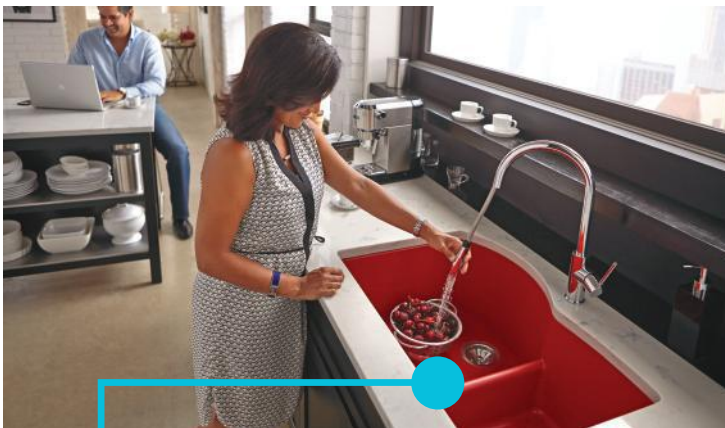

## HEAT SAFE

Sink is heat proof to 535 degrees Fahrenheit to protect surface from hot cookware.

## QUARTZ LUXE

## HAVE THE BEST OF BOTH WORLDS

Sinks with Aqua Divide offer flexibility. The low center wall allows pan handles to extend over the center. Use it as two separate bowls or fill the sink high with water to wash larger items across both bowls.

## TOUGH ENOUGH AND THEN SOME

These sinks are built for superior strength. A proprietary manufacturing process combines embedded organic fibers molded into the sink and a patented fiberglass mat molded onto the underside of the sink to reinforce the work zone.

### Flexible Installation

Dual mount sinks offer the flexibility to install the sink as a drop-in or undermount. Available on select models.

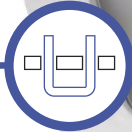

### Sink Reveal

Sinks are finished with a curved, revealed edge. When installing the sink under a countertop, you can install it with or without the edge showing, depending on your design preference and your functional needs.

### Sound Deadening

Sound-deadening materials minimize sound and vibration for a quieter time at the sink.

### Quality Installation

The U-Channel system offers a flexible and quality installation when installing a drop-in sink. Mounting clips can be placed inside the channel before dropping the sink into place. The clips can be slid into position and tightened where needed to close any gaps due to uneven floors or counters.

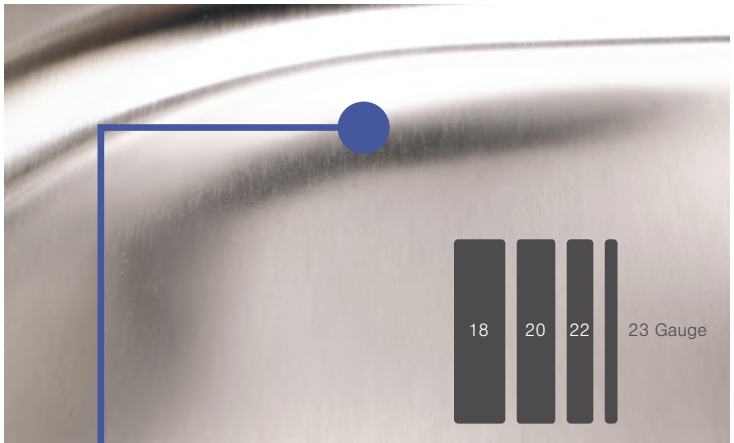

# DAYTON

### ADA Compliant

This product is ADA compliant when properly installed.

### How Low Can You Go

When it comes to gauge, the lower the number, the thicker the stainless steel. A sink constructed of 18-gauge stainless steel is more resistant to denting than a 23-gauge sink.
