FINE DECORATIVE HARDWARE

ESSENTIAL ACCESSORIES:

WHERE FORM, FUNCTION AND STYLE MEET

We distribute fine decorative hardware products that are designed and manufactured in Europe. Our customers include architects, designers, cabinetmakers, builders, renovators, furniture manufacturers and specialty retailers who appreciate extraordinary quality and design.

With our stainless steel collection, you can choose from an extensive selection of innovative product designs, an unparalleled depth of sizes, and exceptional quality of finish. If you need custom sizes, be sure to ask for a quotation.

We include fasteners with all accessories and cabinet hardware (for $\frac{3}{4}$ " panel). If different lengths of fasteners are required, see page 129. Door and appliance handles require fasteners purchased separately based on application - see pages 129 to 131.

We have no minimum order requirements and you don't need to order box quantities. You can buy the exact quantity in the right size for every situation.

We will drop ship with no drop ship charges. Shipping is quick and efficient, as we inventory what we sell. FOB our Toronto warehouse. Freight is pre-paid and added to your invoice at discounted shipping rates.

We offer product samples at additional discounted prices off our suggested list prices. We also have a flexible display board program to assist you in marketing our hardware. See our website for details.

Any questions, please contact our Customer Service Department.

PRICING POLICY

We offer a discount off our Suggested Price List. On individual orders over \$1000, we offer an additional discount. Please contact our Customer Service Department for more information.

Pricing and product availability are subject to change without notification.

It is not necessary to purchase box quantities except if receiving special discounts as a stocking distributor.

Fasteners are included as indicated. Requests for alternate lengths of fasteners should be noted on the purchase order.

FREIGHT POLICY

Freight is FOB our warehouse (in Toronto, Canada). Freight is prepaid and added to your invoice at discounted UPS rates. Freight damages must be reported to the carrier upon receipt of product. All packaging materials must be saved as it may be a requirement of the carrier for processing a claim.

PAYMENT TERMS

Payment terms are NET 30 days, upon approved credit.

We accept VISA & MasterCard.

NSF cheques are subject to a \$20 fee.

RETURNS POLICY

We must be notified, in writing, of shipping errors/defective merchandise within 30 days from invoice date. Before any goods can be returned, a "Return Goods Authorization" (RGA) must be issued. A 40% restocking charge will apply.

Any goods being returned must be shipped as: "DELIVERED DUTY PAID" or "Free Domicile". Any charges incurred for returned goods will be deducted from the credit memo.

Upon receipt and verification of goods by our warehouse (goods must be received in saleable condition), a credit note will be processed to your account and applied against future product orders.

Please note that RGA requests under \$100, special orders and returns more than 30 days after the invoice date will not be processed.

WARRANTY

We warranty our products to be free from defects in material and workmanship for 90 days. This warranty does not cover product abuse, installation errors, improper cleaning or other abnormal conditions. Our liability is limited to the replacement of the product, and no other warranty is expressed or implied.

DISPLAY BOARDS

We have a flexible program of showroom display boards. Based on the size and products you wish to promote and sell, the cost of these boards will vary accordingly. Display boards will be invoiced and 50% of this price is rebated against future product orders. For a selection of our standard display boards, please visit our website. For further information, please contact our Customer Service Department.

CLEANING INSTRUCTIONS

For galvanized and lacquered surfaces, we recommend that the surfaces be cleaned only by wiping them with a soft and dry (or barely moistened) cloth. Chemical substances or cloths that may cause chafing should not be used. We cannot accept liability for damages to articles caused by inappropriate handling or cleaning. For detailed care instruction for stainless steel products, please visit www.dekkorinc.com.

TECHNICAL ILLUSTRATIONS

Please note that the technical illustrations in the figures and drawings, as represented in this catalogue, are not binding. We reserve all rights for improvements on our designs and measurements.

PRINTING ERRORS

We take no responsibility for errors or omissions that might have occurred during the compilation of this catalogue. Colours may not be exactly as shown due to printing processes.

CABINET & DRAWER ACCESSORIES

Anti-slip Liner

- European-designed and manufactured anti-slip, anti-static liner
- Keeps everything secure, cushions and protects surfaces
- Polystyrene rubber liners are finished with a dimpled surface that provides a non-slip grip
- Non-adhesive for easy removal and cleaning to maintain hygiene
- Other Uses? Put a sheet of anti-slip liner under sofa cushions to keep them from sliding out of place. Use as a jar opener in the kitchen. Use in your workshop tool chest to keep tools in place. Use in fridge vegetable crisper to cushion your veggies and make it easier to clean - no need to remove entire drawer.

The non-slip top and bottom surfaces of the rolled & rigid rubber mat provide a firm hold. The material meets all requirements of the kitchen furniture industry being both heat-resistant and food-grade. All forms can be cut to fit.

Liqui-non Protection Mat

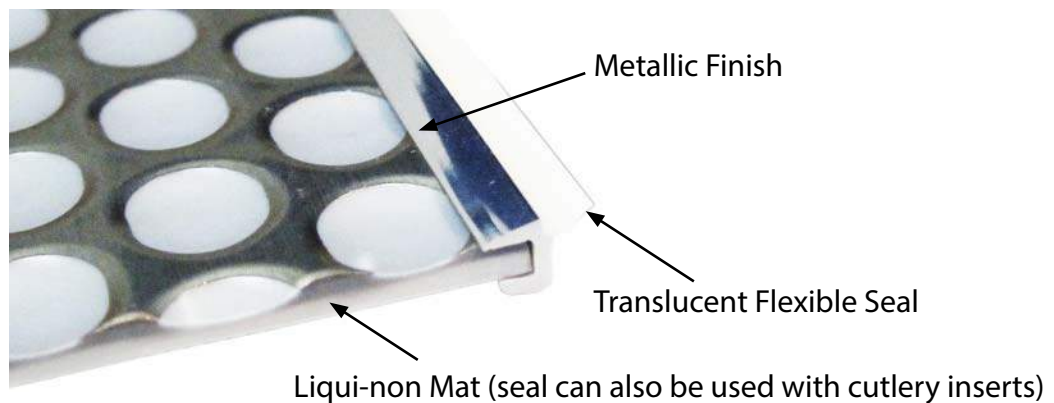

- European-designed and manufactured mats to protect your cabinetry from damage
- This under-sink protection mat offers the ideal safeguard from spilt or leaking liquids
- The specially developed spherical form allows a collection volume of up to 6 litres (1.58 gallons) of liquid per m² (1.2 yard²)
- The mats are cut to fit

Transverse Cutlery Inserts

- European-designed and manufactured cutlery inserts that set new standards in quality and design
- Features include transverse division of the cutlery compartments, a wide compartment for larger utensils and, for the six largest layouts, individually adjustable cross dividers are available
- Anti-static, deep drawn, food-safe polystyrene in high gloss white & silver and matte hard rock maple
- Drawer depth: 550mm (21-5/8")
 - interior maximum depth 524mm (20-5/8")
 - interior minimum depth 440mm (17-5/16")
- Height: 60mm (2-3/8")

STAINLESS STEEL

Why Choose Stainless Steel?

Stainless steel has a unique quality: it can self-repair! Stainless steel has a naturally occurring layer that forms on the surface by oxidization. This film is very thin (only a few atoms thick), inert and invisible. If the surface is accidentally scratched, this protective coating automatically repairs itself. This layer is what makes it corrosion-resistant.

Our products are produced in Europe according to standards that ensure that you are consistently purchasing the finest quality. Stainless steel is guaranteed quality composition and our products are made of a specific grade (AISI 303 or 304) of stainless steel.

Stainless steel will satisfy most “green” building requirements and is one of the most environmentally-friendly metals used in construction. Made from at least 50% recycled stainless steel, it is 100% recyclable and produces no VOC emissions, which makes it ideal for buildings where control of the interior air quality is critical.

It is important to note that stainless steel is both hygienic and aesthetically desirable. Furthermore, stainless steel is strong, impact-resistant and a long-term investment.

How to Care for Stainless Steel

Keep Your Stainless Steel Looking New Forever!

Stainless steel needs to be cleaned for aesthetic considerations and to preserve its corrosion resistance. No hazardous or dangerous chemicals are needed. Wipe in the direction of the brushing with a sponge or soft cloth, using water with a very small amount of gentle detergent or vinegar added. Baking soda may be used as a light abrasive. Immediately rinse with plain water and buff with a soft cloth to dry it completely to avoid water spots and give your hardware a lustrous sheen.

As you handle the hardware, your natural oils give it a patina, which inhibits smudging. Our brushed finish is designed to withstand fingerprints.

Regular cleaning will avoid any stubborn dirt from building up. Unlike other materials, it is impossible to wear out stainless steel by excessive cleaning.

Do not use steel or wire wool as it will leave fragments behind which can tarnish the surface. Do not use hard abrasive scouring powders or creams as they may scratch the surface.

Do not use bleach, chlorides or acid-based cleaning products which can discolor the surface. Chlorine (like that in salt) can eat through and destroy the thin protective layer of passivation that protects stainless steel from corrosion. If chlorine gets on your stainless steel, immediately clean it with fresh water. Do not allow food items like lemon juice, vinegar, ketchup, salt, mustard, salad dressing or mayonnaise to remain on the surface for long. Should this happen, rub with a very fine nylon scrubbing pad and a commercially available stainless steel paste. Try the paste in a hidden spot first. Though stainless steel has superior corrosion resistance, it is stain-less - not stain-proof.

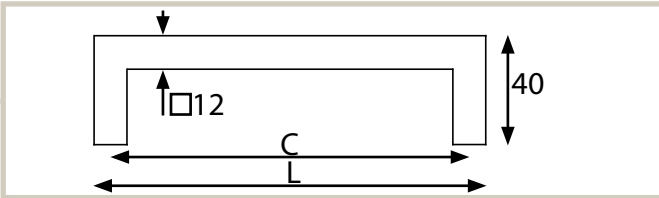

Polished Stainless Steel
