

Building and Site Modification Procedure

Responsible Department: PK12, Finance and Operations

Responsible Executive: PK12, Finance and Operations

Date Established: 4/4/16

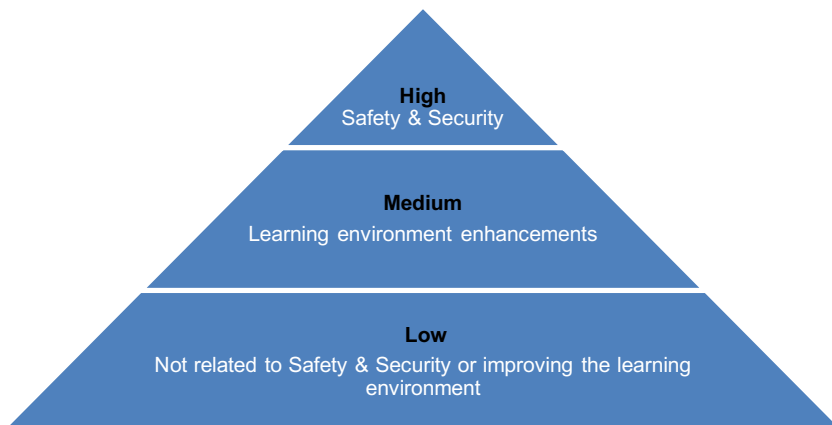

Date Last Revised: -

PURPOSE

The Building and Site Modification Procedure ensures that the integrity and safety of the buildings, fixed contents, grounds, equipment and systems owned by Douglas County School District are maintained while allowing a process for changes and improvements. The procedure also defines the fiscal responsibilities for modifications.

In developing the Building and Site Modification Procedure, PK12, Finance, Operations & Maintenance and Security consider a number of factors including:

- Student, employee and public Safety, Health and Security.
- Protection and preservation of property, buildings and equipment.
- Funding limitations.
- Planned and unplanned services.
- Any of the changes can be significant and, if not completed to DCSD specifications, may result in regulatory violations (e.g., fire code, building code), cost impacts and/or risk issues. To minimize those incidents, all work must be performed in accordance with Superintendent Policy XXX.
- STRATEGIC / DISTRICT PRIORITIES

High priority is given to, but not limited to the requests that enhance Safety and Security of the building and occupants and to the operational preservation and reliability of the Infrastructure.

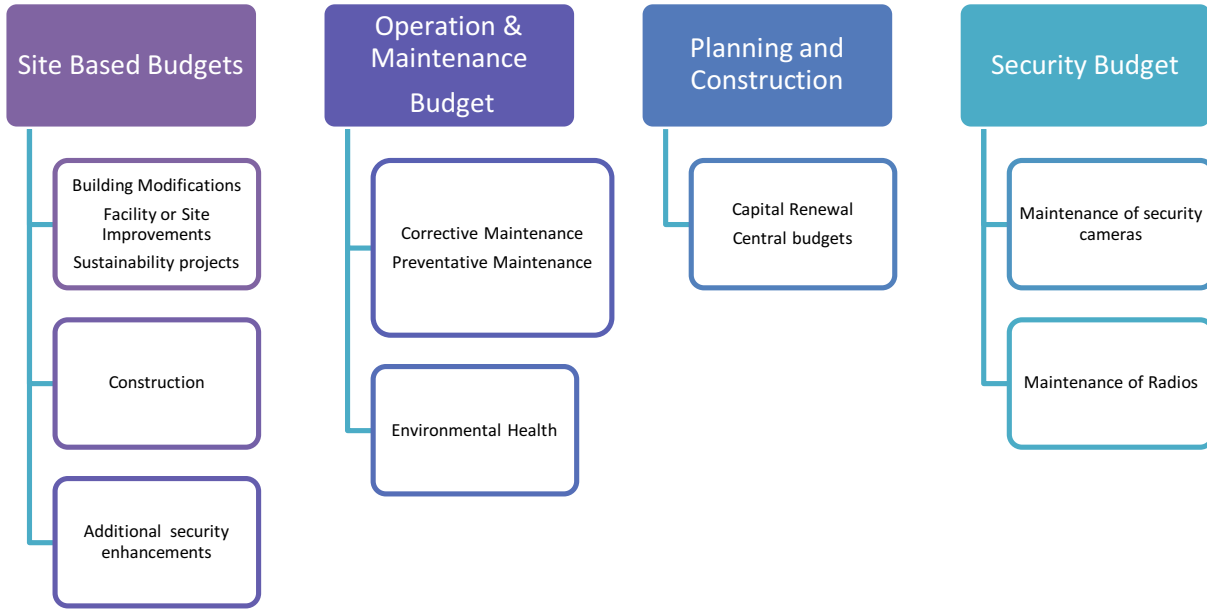

Medium priority is given to, but not limited to the requests that enhance the learning environment and student learning.

Low priority is given to, but not limited to the requests that do not enhance Safety & Security or improvements to the learning environment.
