FLASHLIGHT LINKS

Tactical flashlights are available now almost everywhere. Just be sure to look for a length, size and grip that are comfortable to you.

My preferred one was the Nitecore P10

You can get the special batteries for the P10 at Best Buy

<https://www.bestbuy.ca/en-ca/search?search=cr123>

The MT2A is the long thinner one with 2AA batteries

The 5.11 pen I also showed you is available here:

DAY PACKS & MONEY BELTS

Here are the bags and money belts we spoke of. I really do like to shop with Amazon because their service is really fast and it is very easy to make returns when needed. Their prices are also very good and shipping is free with a 35\$ purchase which is seriously nothing. Just be sure to select the Free Shipping option at the check-out. Also, before adding a product to your cart, make sure the product is shipped and sold by Amazon—everything is just so much easier when that is the case...

The screenshot shows the Amazon product page for a "Travelon Anti-Theft Active Daypack Multipurpose Backpack, Black". The page includes a navigation bar at the top with categories like "Amazon Fashion", "SALES & DEALS", "WOMEN", "MEN", "GIRLS", "BOYS", "BABY", "OUR BRANDS", "LUGGAGE", and "FREE RETURNS". The product title is "Travelon Anti-Theft Active Daypack Multipurpose Backpack, Black" by Travelon. The price is listed as "CDN\$ 126.90 & FREE Shipping". The page also shows a "Quantity" dropdown set to 1, and buttons for "Add to Cart" and "Buy Now". A red circle highlights the text "Ships from and sold by Amazon.ca." with an orange arrow pointing to it.

Day packs

IMPORTANT: Be sure to look for ANTI-THEFT characteristics. Travelon seems to be a very good brand, with good ratings over years however, they do have bags without anti-theft measures so be sure to look for the anti-theft mention

Money belts

I like skin color so they show less from underneath our tops, Look at the straps and the way they clip, the fabric, the thickness, breathability as well as the adjustability for your waist/neck/other... Make sure the passport fits and that you can also put in your tickets without having to fold them.

RFID PROTECTION—do we really need it?

Here are a few articles and youtube video that speak to the need for RFID protection. In the end, I recommend you protect yourself as you see fit—the RFID protection sleeves may be pertinent, however, don't overspend on them... For example, the money belt I recommended above has RFID protection at a very affordable price!
